Flo2 Diverter Valve ACCESSORIES SHEET

For use with Greenergy Group, Inc.'s line of IAPMO certified, UPC listed DWV Flo2 Diverter Valves (patent pending) for all drainage and waste applications

EXTENSION ARM AND 90° ADAPTER

Our 90° adapter allows for easy valve operation in tight quarters or in areas where the valve is deeply recessed, such as in a crawl space or several feet below grade when necessary for gravity flow. The design allows for any length as determined by the user. Simply cut to fit SCH40 or SCH80 PVC pipe.

Features:

- Durable ABS/PVC Construction
- Smaller Profile for Ease of Use and Installation
- Easy 180° Operation to Divert Flow
- Simple Length Adjustability Using Off-the-Shelf 1" SCH40 or SCH80 PVC Pipe
- 90° adapter can be used with electronic valve actuators using the same ANSI mounting system as the supplied handle

24V DC ACTUATOR WITH POWER SUPPLY

One touch diversion simplifies use for homeowner when diversion is necessary for greywater not suitable for irrigation. Automated valve actuation offers ease of use and safe default to sewer diversion in case of power interruption. Option to be operated with either a wall box mounted switch or hand-held remote control

Features:

- Switching by either Wall Mounted or Remote Control
- Auto Default Divert to Sewer for Power Interruption or System Fault
- Offers Visual Indicator of Valve Position
- Manual Actuator Operation with Attached Allen Wrench

AVAILABLE UPON REQUEST:

110V Line Voltage Actuator

Actuator with Remote Control Capability
